## To Our Valued Customers & Golf Industry Professionals -

We are proud to present you with our **2018-2019 Catalog**. In it you'll find Wittek Golf's most comprehensive collection of golf range equipment, golf range supplies, pro shop supplies and mini golf supplies ever.

Since 1946 Wittek Golf has been the first choice of golf professionals, superintendents, and golf industry buyers. **We are not slowing down.** Our product innovation, manufacturing capabilities and distribution centers continue to expand. And, as you'll see in this catalog, we've added several new products to improve your golf facility... including the **NEW Eagle Lite Ball Picker**.

In 2017 Wittek Golf acquired **Eagle One Golf**. You may have heard this exciting news from your account manager, industry media, or online. This acquisition has produced major enhancements to our offerings and customers' experience.

Adding Eagle One Golf to our Company has enabled us to both manufacture and offer our customers even better golf course products and custom services. We now have a recycled plastic lumber shop, flag shop, sign shop, and much more which you'll see listed throughout these catalog pages.

We now also have **two manufacturing and distribution centers** to better service you - **Los Angeles** and **Chicago**. Both locations are loaded with inventory, prepped with machinery to customize any order, and ready to quickly ship you the golf supplies you need. Items are in-stock and ready to ship!

Lastly, if you haven't already done so, please visit **www.wittek golf.com**. It's an excellent resource for finding the products you're looking for. Ordering from our website is the **fastest** and **easiest** way to place an order.

**Thank you** for the continued opportunity to serve you. We are confident that our new affiliation, and constant improvements, will serve our valued customers well.

## the **Wittek®** **Quattro Mat**

The perfect mat for Country Club use. The Quattro Mat offers the best alternative for your players when the grass is too wet to be used.

The Quattro Mat is the most realistic simulation to a fairway on the market. The Quattro Mat features an impact dampening system. The knitted nylon turf is bonded to an interface layer which protects the mat from tearing. The dampening system consists of highly elastic polyurethane fibers acting to absorb the impact of the club. The end result is what gives the Quattro Mat an incredibly soft feel while providing extra protection to the golfer's wrists, torso, and lower body. Eight tee holes extend mat life. Bottom side of holes are countersunk to accept base of rubber tee.

This mat gives the player the feel of hitting off fairways and tees.

Tee Holes: 5/8" insert holes for rubber tees are centered on all sides and positioned 6 1/2" inside the mat edge. Bottom side of holes are countersunk to accept base of rubber tee.

This 100% nylon mat uses both straight and curled fibers. The straight fibers offer a nice fairway lie, while the curled fibers ensure the player a stable stance. The combination of these fibers creates no resistance at impact.

## MagStrike Golf Mat

In this High Tech World, sometimes the most elementary principles are still pioneering...

**Innovation, Simplicity & Efficiency = Evolution**

Magnets are permanently imbedded in the turf base as well as the hitting area frame. The magnetic fields create an air pillow, which means the mat actually floats! This simulates the same experience as when playing on grass.

When the club hits the Magstrike mat, it feels like hitting a divot, not bouncing off a rubber pad.

All the energy is absorbed by the magnetic field.
