A SHOE THAT
FITS YOUR FOOT
IS ESSENTIAL.

A SHOE THAT ALSO
FITS YOUR SWING
IS INVALUABLE.

THE FJ PERFORMANCE FITTING SYSTEM analyzes individual golfer center of pressure movement and speed of transfer in order to recommend the correct type of golf shoe — **MOBILE OR STRUCTURED**. When fit to the correct shoe, a golfer can **INCREASE DRIVER CLUBHEAD SPEED AN AVERAGE OF 3 MPH**, or gain an average of **9 YARDS OF ADDITIONAL DISTANCE** off the tee.

FJ PERFORMANCE FITTING SYSTEM RATING

MOBILE

STRUCTURED

Mobile shoes are highly flexible and cushiony, providing more freedom of movement in the swing.

FJ PERFORMANCE FITTING SYSTEM RATING

MOBILE

STRUCTURED

Structured shoes, while still offering a level of flexibility and cushioning, are firmer in nature and provide the golfer with a more secure, locked-in feel.

Be sure to get fit on the FJ Performance Fitting System to determine what shoe is best for your particular swing.

WANT MORE **SPEED?**
IT'S RIGHT AT **YOUR FEET.**
